

The A BEAM

The A BEAM is an aluminum alloy 6005/T5 beam manufactured for VFI. It is designed to fit inside a 2" x 6" hollow PVC profile. Standard lengths are available in 12', 14', and 16' lengths. Custom lengths are available by Special Order. Quantity restrictions may apply.

The A BEAM was designed for use in structural pergolas.

Used in conjunction with VFI's Steel Insert System TM to produce large sized pergolas.
